PROFESSIONAL SUMMARY

Software Engineering graduate specializing in Java backend development with hands-on experience in Spring Boot, REST APIs, microservices, and cloud-native applications. Experienced in debugging, application maintenance, performance optimization, and Agile software development. Passionate about designing scalable backend systems and continuously learning new technologies.

PROFESSIONAL EXPERIENCE

- Back-End Software Engineering Intern (Final Year Project)**01/2025 – 07/2025
BramaSquare360, Tunis
 - Designed and tested backend services within a microservices architecture using Spring Boot.
 - Validated REST APIs with authentication, authorization, input validation, and exception handling.
 - Improved API response time by 30% under load using Kafka messaging and Redis caching, validated through JMeter performance testing.
 - Participated in debugging production issues, corrective maintenance, and continuous improvement of backend services using Spring Boot.
- Full-Stack Software Engineering Intern**11/2024
Confledis (Academic Internship)
 - Developed and tested full-stack application features using Spring Boot and front-end technologies.
 - Participated in bug fixing, debugging, and validation of application workflows.
 - Designed and tested REST APIs while collaborating in Agile development cycles.

PROJECTS

- Afaq Blog Platform**06/2024 – 08/2024
 - Developed REST APIs with Spring Boot and JWT authentication, integrated with React and MongoDB.
- DevOps CI/CD Pipeline**10/2024 – 11/2024
 - Built CI/CD pipeline with Jenkins, Docker, SonarQube, and automated testing using JUnit and Mockito.
- Senior Needs Management Platform**02/2024 – 05/2024
 - Developed and tested Spring Boot REST services with Angular frontend.

EDUCATION

- Engineering Degree in Software Engineering (EUR-ACE)**2022 – 2025
ESPRIT – Higher School of Engineering and Technology, Tunisia
- Preparatory Cycle in Mathematics and Physics**2019 – 2022
IPEIB - Preparatory Institute for Engineering Studies of Bizerte, Tunisia

TECHNICAL SKILLS

- Testing & QA:** JUnit, Mockito, JMeter, API Testing, Debugging, Validation, Performance Testing
- Backend:** Java (8, 11, 17), Spring Boot, REST APIs, Microservices, JWT Authentication
- Frontend:** Angular, React
- Databases:** PostgreSQL, MySQL, MongoDB
- DevOps & Tools:** Docker, Kubernetes, Jenkins, GitHub Actions, Linux, Redis, SonarQube, Prometheus, Grafana
- Architecture:** Microservices, Clean Architecture, DDD, MVC
- Methodologies:** Agile, Scrum, CI/CD **Development Tools:** IntelliJ IDEA, Eclipse, Visual Studio Code, Git

LANGUAGES

English (C1), French (B2), Turkish (B2), German (A2), Arabic (Native)
